                             She said my breasts, they will always be open  
                             Baby, you can rest your weary head right on me  
                             And there will always be a space in my parking lot  
                             When you need a little coke and sympathy

**Chorus 2**                Yeah, we all need someone we can dream on  
                             And if you want it, Babe, well you can dream on me  
                             Yeah, we all need someone we can cream on  
                             Yeah, and if you want to, you can cream on me

**Verse 2**                I was dreaming of a steel guitar engagement  
                             When you junked my health and sent in Jasmine Tea  
                             Oh, she knifed me in my dirty filthy basement  
                             With that jaded, faded, junky nurse (Oh what pleasant company, huh)

**Chorus 3**                Well, we all need someone we can feed on  
                             And if you want it, you can feed on me  
                             Take my arms, take my legs, oh baby don't you take my head

**Chorus 4**                Yeah, we all need someone we can bleed on  
                             And if you want it, Baby, you can bleed on me, yeah  
                             We all need someone we can bleed on, yeah, yeah  
                             And if you want it, Baby, you can bleed on me, all over

**Slide Lead = Chorus**

**Chorus 5**                Bleed it alright, bleed it alright,  
*Repeat and fade*        Bleed it alright, you can bleed all over me  
                             Bleed it alright, bleed it alright, (whooo, yeah)  
                             You can be my rider, you can cum all over me
